To Whom It May Concern:

The Humane Society envisions a compassionate community where every pet has a loving, forever home and animals are treated as living, feeling creatures. It has been my pleasure as Executive Director to meet author Linda Fortune, whose book, "Regal – An Intimate View of One Magnificent Feline" echoes these sentiments.

Ms. Fortune is not only a talented author; she is also an engaging speaker. She shares the story of her extraordinary friend, who also happens to be a cat, and their life journey together in a style that relates to audiences of all ages and backgrounds. I introduced her at a recent library book signing and witnessed the positive impact she had on the audience. They sat spellbound as she related her experiences and asked many questions at the conclusion.

Virtually any group looking for an interesting speaker should consider inviting Ms. Fortune for a presentation and book signing.

Please contact me at (253) 284-5850 for a personal recommendation.

Sincerely,

**Kathleen Olson**
